

# **Schedule of surgical maximums**

Effective from 17 October 2011

## Schedule of Surgical Maximums

This **Schedule of Surgical Maximums** forms part of your Southern Cross health insurance policy. It should be read in conjunction with your policy document.

For KiwiCare and RegularCare policies the **Schedule of Surgical Maximums** sets out:

- the eligible procedures and their policy limits for surgeon and anaesthetist fees for those procedures not specifically listed in the Surgical Treatment section of the Coverage Tables;
- the eligible surgically implanted prostheses and their policy limits; and
- the eligible cardiac and diagnostic tests and their policy limits.

These policy limits are subject to the usual policy exclusions (including pre-existing conditions) and other terms and conditions set out in the policy document. Please refer to the chart under "How does cover work under my policy?" in your policy document for how your refund for an eligible healthcare service will be calculated. If you are on a budget plan excesses will apply.

The **Schedule of Surgical Maximums** is made up of 14 sections: general surgery, otolaryngology (ear nose and throat), urology, gynaecology, ophthalmology, orthopaedic surgery, peripheral vascular surgery, plastics, oral and maxillofacial surgery, cardiac surgery, interventional radiology, neurosurgery, prostheses and tests.

If you are intending to have surgery, please call us so we can guide you through the **Schedule of Surgical Maximums** and provide prior approval for your claim.

### Surgeon and Anaesthetist Maximums

Under the KiwiCare or RegularCare plans your refund for surgeon and anaesthetist costs will be your actual costs up to the policy limit in the **Schedule of Surgical Maximums** for the particular surgical procedure.

Your refund for any prosthesis will be 80% of actual costs up to the policy limit stated in the **Schedule of Surgical Maximums** for KiwiCare and RegularCare policies.

Your refund for eligible cardiac and diagnostic tests will be 80% of actual costs up to the policy limit stated in the Test section of the Coverage Tables of the KiwiCare and RegularCare policy documents.

If your healthcare service is performed by an Affiliated Provider, we will reimburse your Affiliated Provider directly the price for the procedure we have agreed with them and they will advise you what you are required to pay.

The policy limits set out in the **Schedule of Surgical Maximums** are set at a level that reflects the premium charged for the KiwiCare and RegularCare policies. The policy limits do not provide a total refund of the costs for your healthcare service, nor are they set at a level to ensure that you receive a particular percentage refund of the costs. In some cases your refund may be substantially less than your actual costs."

If the surgeon and anaesthetist costs are below the policy limits in the **Schedule of Surgical Maximums** for the procedure, you will receive a full reimbursement of your actual costs (less any excess if one applies to your policy). If the cost of your treatment is above the policy limits you will need to pay the difference.

For example, if you are on a RegularCare policy and need treatment for an inguinal hernia, the maximum payable under your policy for the surgeon's fee is \$1,209. If your surgeon charges a fee of \$1,350 you will receive a refund of \$1,209 from Southern Cross and be required to pay the remaining \$149 yourself. For the same procedure, the anaesthetist's fee refund maximum is \$513. If your anaesthetist charges you only \$500, you will receive a full reimbursement of \$500.

### Multiple Procedures

When you have two or more surgical procedures simultaneously, sequentially or under the same anaesthetic we will reimburse you for up to 100% of the policy limits for your surgeon and anaesthetist fees on the main procedure, and reimburse you for up to 50% of the policy limits for your surgeon and anaesthetist fees on the second procedure.

### Non-Listed Procedures

If a surgical procedure, prosthesis or test is not listed in the **Schedule or Surgical Maximums** (or the Coverage Tables) it will not be covered unless Southern Cross decides, in its sole discretion, to offer cover.

Southern Cross reserves the right to change or update this **Schedule of Surgical Maximums**.
