List of Surgical Procedures

Effective from 1 July 2008

List of Surgical Procedures

Applies to Extensive Cover (HospitalCare, Hospital & SpecialistCare and SureCare), UltraCare (UltraCare Base, UltraCare Option 100, and UltraCare Option 400), SureCare Concessionary and SuperCare plans.

This **List of Surgical Procedures** forms part of your Southern Cross Health Society policy. It should be read in conjunction with your policy document.

The **List of Surgical Procedures** sets out the surgical procedures covered by your ExtensiveCover, UltraCare, SureCare Concessionary or SuperCare plan, under the Surgical Treatment section of the Coverage Table.

The **List of Surgical Procedures** is made up of fourteen sections: general surgery, otolaryngology (ear nose and throat), urology, gynaecology, ophthalmology, orthopaedic surgery, peripheral vascular surgery, oral and maxillofacial surgery, interventional radiology, cardiac surgery, neurosurgery, plastic surgery, prostheses and tests.

Your plan provides cover for the surgical procedures contained in the **list of surgical procedures**, subject to the policy limits outlined in the Coverage Table of your policy document and subject to the usual policy exclusions (including pre-existing conditions and other terms and conditions set out in the policy). Refer to the chart under 'How does my cover work under my policy' in your policy document for how your refund for eligible healthcare services will be calculated. If you are on a SureCare plan, excesses will apply.

If you are intending to have surgery, please call us so that we can guide you through the **List of Surgical Procedures** and provide prior approval for your claim.

Procedures not listed

If a surgical procedure is not included in the **List of Surgical Procedures** (or specifically included in the coverage table) it will not be covered unless otherwise advised by Southern Cross at the sole discretion of our Chief Medical Officer. In these circumstances there is no guarantee of a refund. If our Chief Medical Officer decides to grant an ex-gratia refund, it is likely to be significantly less than the actual cost.

Median total cost for a procedure

To give you an idea of the total cost that you may be charged, we have included in the **List of Surgical Procedures** the median total fee that Southern Cross members were charged by providers between

1 January 2007 and 31 December 2007 for each procedure.

This median total charge for each procedure includes the following components (where applicable):

- Surgeon's fee.
- Anaesthetist's fee.
- Hospital fees, including accommodation and operating theatre fees, X-rays and sundries.
- Any surgically implanted prosthesis (prostheses costs vary considerably depending on need and clinical preference).
- In-hospital post-operative physiotherapy.

In some cases we don't have enough information from the claims made by our members in 2007 to provide a fair indication of the likely costs. In these cases we have left that field in the table blank.

The median total cost figures provided in the **List of Surgical Procedures** are not indicative of your likely refund for each component of the surgery. Your policy limits are outlined in the Coverage Table in your policy guide.

Southern Cross reserves the right to change or update this **List of Surgical Procedures** from time to time.
