

Eligibility criteria for radiofrequency ablation of bone lesions

Southern Cross will only reimburse the cost of radiofrequency ablation of bone lesions under a member's policy when **all** of the following criteria below are met for that member.

1. The treatment is for diagnosed osteoid osteoma or other benign bone tumour.
2. The diagnosis has been confirmed by an MRI and/or CT scan.
3. The member has been referred for the treatment by a vocationally registered orthopaedic surgeon.
